

BVD DATA RELEASE PERMISSION FORM

XLVets BVD Free...It's time to take control.

BVD Check is a simple online tool to search for published BVD test results. With permission, your veterinary practice will upload all negative test results for individual animals in your herd. The published data will include the animal identification number, but no other farm data. For any animal result recorded on the system, a certificate can be produced to accompany the passport when that animal is sold.

PLEASE NOTE: All fields must be completed before submission.

Please complete the details below about your farm and your vet practice in **BLOCK CAPITALS**. This information is needed to allow XLVet UK Ltd to display negative BVD test results on BVD Check.

Farm name: _____

Farm address: _____

_____ Postcode: _____

Mobile number: _____ Email address: _____

Veterinary Practice: _____

Laboratory (if known): _____

Statement for data release purposes:

Please tick this box if you agree with the following statement:

"I authorise my veterinary practice and supporting laboratory to give XLVet UK Ltd access to my BVD test results until further notice. Please make my data available via www.bvdcheck.co.uk"

Please arrange to allow release of my BVD test results to XLVet UK Ltd, Carlisle House, Townhead Road, Dalston, Carlisle CA5 7JF.

Please return completed permission form by:

POST: XLVet UK Ltd, Carlisle House, Townhead Road, Dalston, Carlisle, Cumbria CA5 7JF
